TO: Lake Winnebago Residents

FROM: Mayor Michael Collar

RE: Covid-19 update

Dear Resident:

Since our last communication we have had one more reported case of Covid-19 at Lake Winnebago bringing the total to 5. I continue to get daily updates from Cass County Health Department, however we are now finding out that it can be 10-14 days before we get the information, so in most cases the resident has already quarantined themselves from others and we are not aware of anyone that is seriously ill from Covid-19. As of yesterday, there have been 847 cases since day one in Cass county, 690 are recovered, 4 are currently in the Hospital and they have been 14 deaths in Cass County.

I monitor both Eastern Jackson County and Cass county when making decisions for our community. Beginning today August 14th Outside crowds can now be up to 100 with Social Distancing in mind. We also encourage wearing masks and other safety precautions as well.

Many are planning outside gatherings please take necessary precautions to keep your guests safe. Also be mindful if guests are from outside our community find out if they have been traveling to any Hot Spots. Simple things like having someone serve the food can help keep everyone safer.

We now have a tab on our website for Covid-19 updates, www.cityoflakewinnebago.com

Let's continue to work together and use common sense to keep our community safe.

Stay Safe,

Mayor Collar
